Transition Success with AT Solutions

The world around us is evolving at an astounding rate. Assistive Technology developments have been foundational in this evolution and a catalyst for producing positive life-changing results for individuals with disabilities.

This session will take a closer look at:

- AMAC | Tools for Life – AT Act Program
 - Advocacy & Knowing Your Rights
 - Understanding Assistive Technology
 - Trends to Watch
 - where we are and perhaps, where we are going.
- ...all in 60 minutes!

AMAC

AMAC Accessibility is a social change organization on a mission to create affordable services for governmental, private and non-profits organization working with individuals with disabilities. Services include e-text, braille, captioning, assistive technology, office management software and consulting.

Accessibility Made Smart

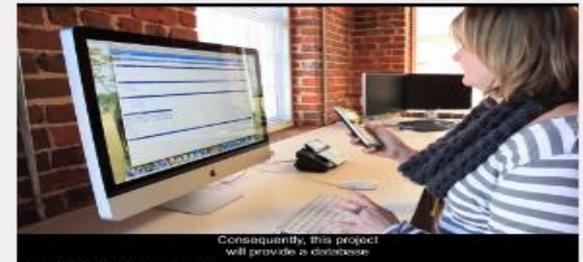

AMAC creates practical solutions that work, with a focus on utility, ease of use, and high quality.

- **Accessibility Consulting** focuses on organizational accessibility needs with evaluation, technical assistance, customer support, and website accessibility solutions.
- **Braille Services** produces customized projects from both print materials and electronic text including partial books and chapters or graphics only using cutting-edge technology.
- **Captioning Services** makes classrooms, meetings, labs and other audio environments fully accessible for deaf or hard-of-hearing.
- **Professional E-Text Producers** provide high-quality e-text in many formats such as PDF, DOC, DAISY, and HTML.
- **Certified Assistive Technology team** provides on-site and remote assessments, demonstrations, training and technical assistance for education, work, and daily living environments.

Welcome to the Georgia College & Career Readiness Institute...

AKA:

Welcome to Creative Trail & Bridge Building 101!

Guiding Principles

- **We – Collectively – are Brilliant & Can find an Innovative Path and Create Brighter Futures**
- **Smooth Transitions Make The Difference!**
- **We must Think, Live and Act from a place of Abundance – We have enough time, money, resources...**
- **We Must Focus on Abilities!**
- **Assistive Technology is Key to Success.**
- **Success Breeds Success**
- **YOU have the Power to make the Difference!**
 - **Change vs. Progress (Bob Phillips)**

Guiding Principle

- Disability is a natural part of the human experience and in no way diminishes the right of individuals to—
 - (A) live independently;
 - (B) enjoy self-determination and make choices;
 - (C) benefit from an education;
 - (D) pursue meaningful careers; and
 - (E) enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of society in the United States.

Guiding Principles

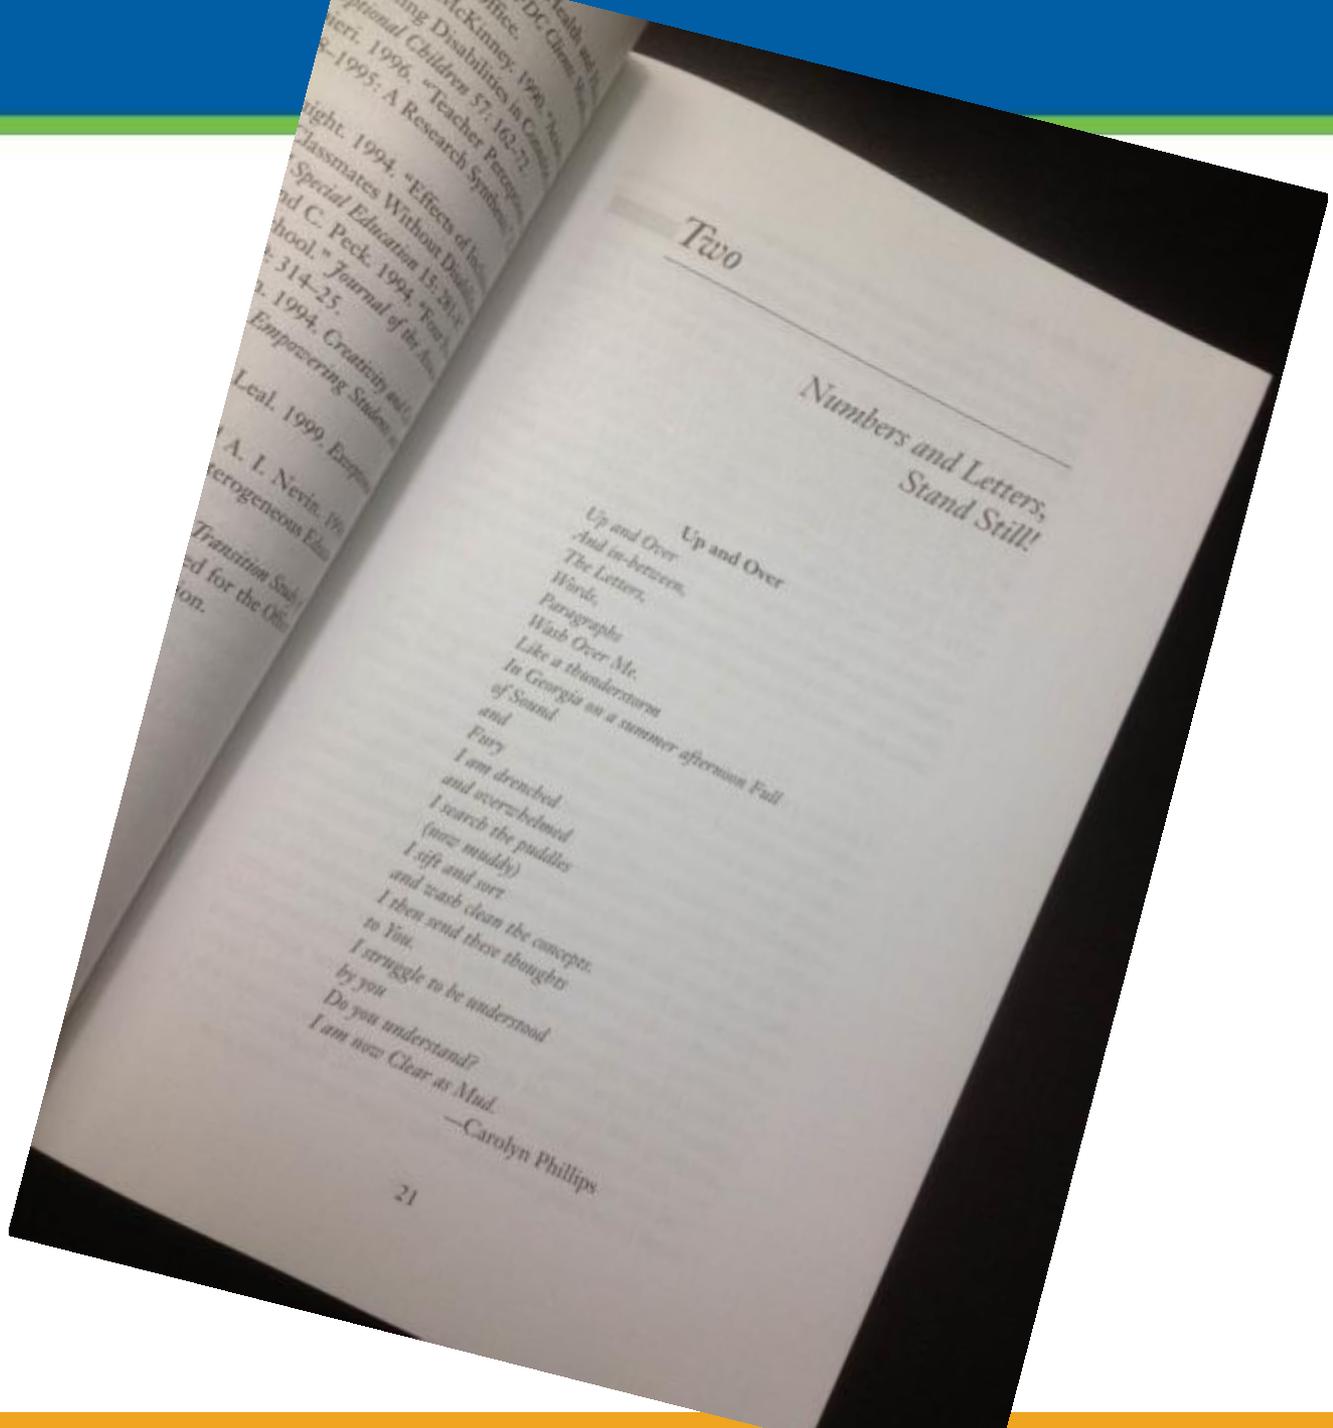

TIP: To be Successful –

- We need to move from Transactional Relationships to developing **Transformational** Relationships.
- We need to moved from Independent to **Intrdependent**.

The Neurology of My Brain

The “rate” at which you learn will become the only sustainable competition advantage you’ll have in your life.

- Peter Senge

- Visual Perception & Discrimination
- Auditory Perception & Discrimination

Carolyn's Specific Learning Disabilities

- **Dyslexia** - Difficulties with learning to **translate printed words into spoken words with ease**
- **Dysgraphia** - Deficits in **writing** (organization, clarity, unity, **mechanical errors, spelling, handwriting**)
- **Dyscalculia** - **Difficulty with numbers** and/or remembering facts over a long period of time (columns, **number reversal**, mathematical operation)

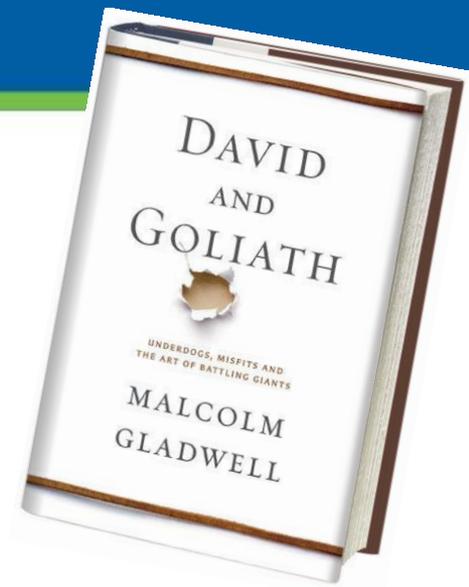

Carolyn's Specific Learning Disabilities

- **Auditory Perceptual Deficit** – Has **trouble receiving accurate information from the sense of hearing (trouble with how the brain interprets what it hears)** - oral instructions, differentiating between similar sounds, hearing one sound over a background of other noise

“...What do we mean when we call something a *disadvantage*? **Conventional wisdom holds that a disadvantage is something that ought to be avoided—that it is a setback or a difficulty that leaves you worse off than you would be otherwise.** But that is not always the case....I want to explore the idea that there are such things as “***desirable difficulties.***” That concept was conceived by Robert Bjork and Elizabeth Bjork, two psychologists at the University of California, Los Angeles, and it is a beautiful and haunting way of understanding how underdogs come to excel.”

~Malcom Gladwell from Chapter 5

Why Am I Here Today?

Transition Success:

**Understanding the
Self-Advocacy & AT
Connection**

Transition Success: Consider this...

- My Success relies on
 - Knowing Myself
 - Self-Exploration
 - Who Are You?
 - Learning Style
 - What is Your Learning Style?
 - Honestly Exploring –
 - What do I want to Do When I Grow Up?
 - What Assistive Technology do I need to accomplish my Goals?

Transition Success: Consider this...

- My Success relied on
 - Communication about My disAbilities
 - Understanding My disAbility
 - Language is Powerful
 - Talking with Housemates, Partners, Professors and Employers about my specific disAbilities
 - And Listening
 - Understanding My Weaknesses
 - Understanding My Strengths

Transition Success: Consider this...

- How did You see yourself?
 - Strengths
 - Areas of weakness
- Talk with me about your disability.
- Where are You Headed?
 - Got a Map?
- What do You Consider to be Success?
- What is Your Vision for Your Future?
- What is Our Collective Vision for the Future?
- Who is in/needs to be in Your Circle of Support?

Transition Success:

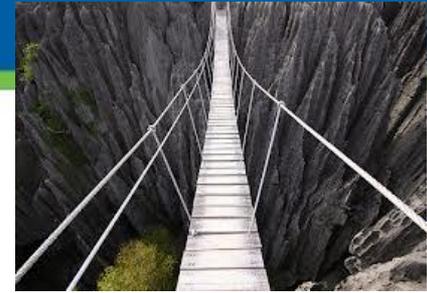

Understanding the Assistive Technology Connection

Why Assistive Technology?

- For a person without a disability, technology makes things easier....
- For a person with a disability, technology makes things possible.
- **TIP: USE AT. I have yet to meet a successful student who doesn't use Any AT.**

Consider this -

- My Success relied on
 - Assistive Technology!!
 - Try before you buy – Explore!
 - Training
 - Think across environments –
 - Laptop – Still Need!
 - iPhone – I used 13 apps yesterday and today!
 - iPad – use everyday
 - Organization – Learn Your Style
 - efficiency brings peace
 - Evaluations – Hot Button
 - Working from No/Old/Incorrect info
 - Don't trust everything you read & hear
 - Advocate for an AT Evaluation/Assessment

Universal Design for Learning & Differentiation

"Research indicates that many of the emotional or social difficulties gifted students experience disappear when their educational climates are adapted to their level and pace of learning."

TIP: Differentiation in education can also include how a student shows that they have mastery of a concept. This could be through a research paper, role play, podcast, diagram, poster, etc.

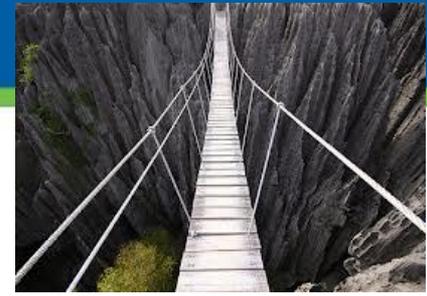

TIP: The key to differentiation is finding how your students learn and displays their learning that meets their specific needs.

Use Multi-modal Input Supports

- Communication breakdowns
- Reduce anxiety and behavioral meltdowns
- Teach functional skills
- Help with transitions
- Teach instruction, organization & expression
- Teach independence

Consider this -

- My Success relies on
 - Failing
 - Dignity of Failure
 - I learned More from My “Failures” sometimes than my “successes”
 - Give yourself room to fail – and Grow from the experience
 - Learn to Laugh...a lot!
 - Be Optimistic...
 - Evaluate & Evolve!

“Audentis fortuna juvet!”

**means...Fortune favors the bold.
Sometimes 'audentis' is translated as
'brave'. The literal meaning is more like
'daring'. The line is from Virgil (A. 10.284).**

Moving from Information to Action

Educational Psychological Evaluations

- One to one assessment
- Comprehensive battery of tests
- Detailed report with recommendations for support in work and/or learning

- What did You learn in your Evaluation?
- Moving from Information to Action
 - Using your Evaluation results as an Action Plan for AT

The “FAST” Track

- **Frustration**
- **Anxiety**
- **Stress**
- **Tension**

The SETT Framework

S = Student/Skills

E = Environment

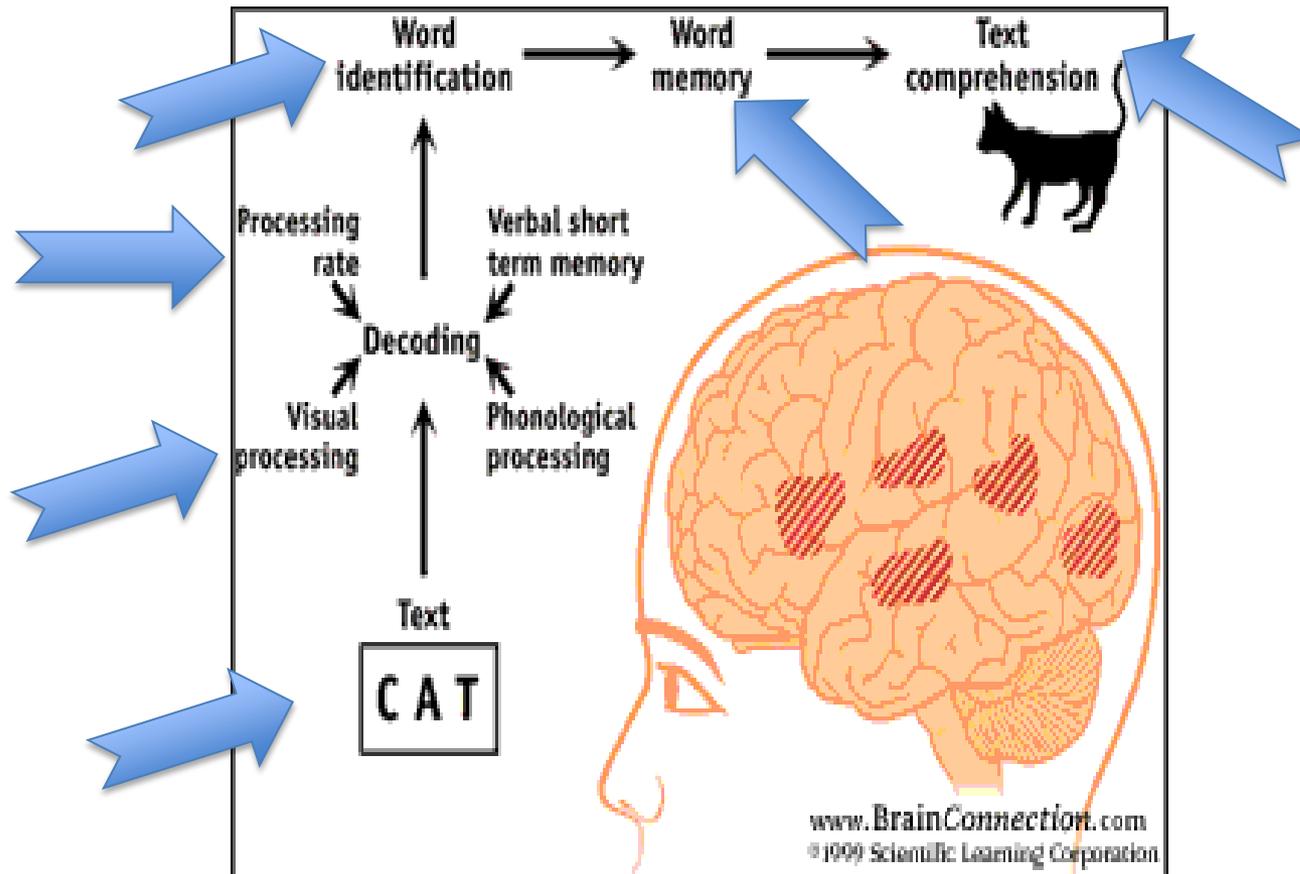

T = Tasks

T = Tools

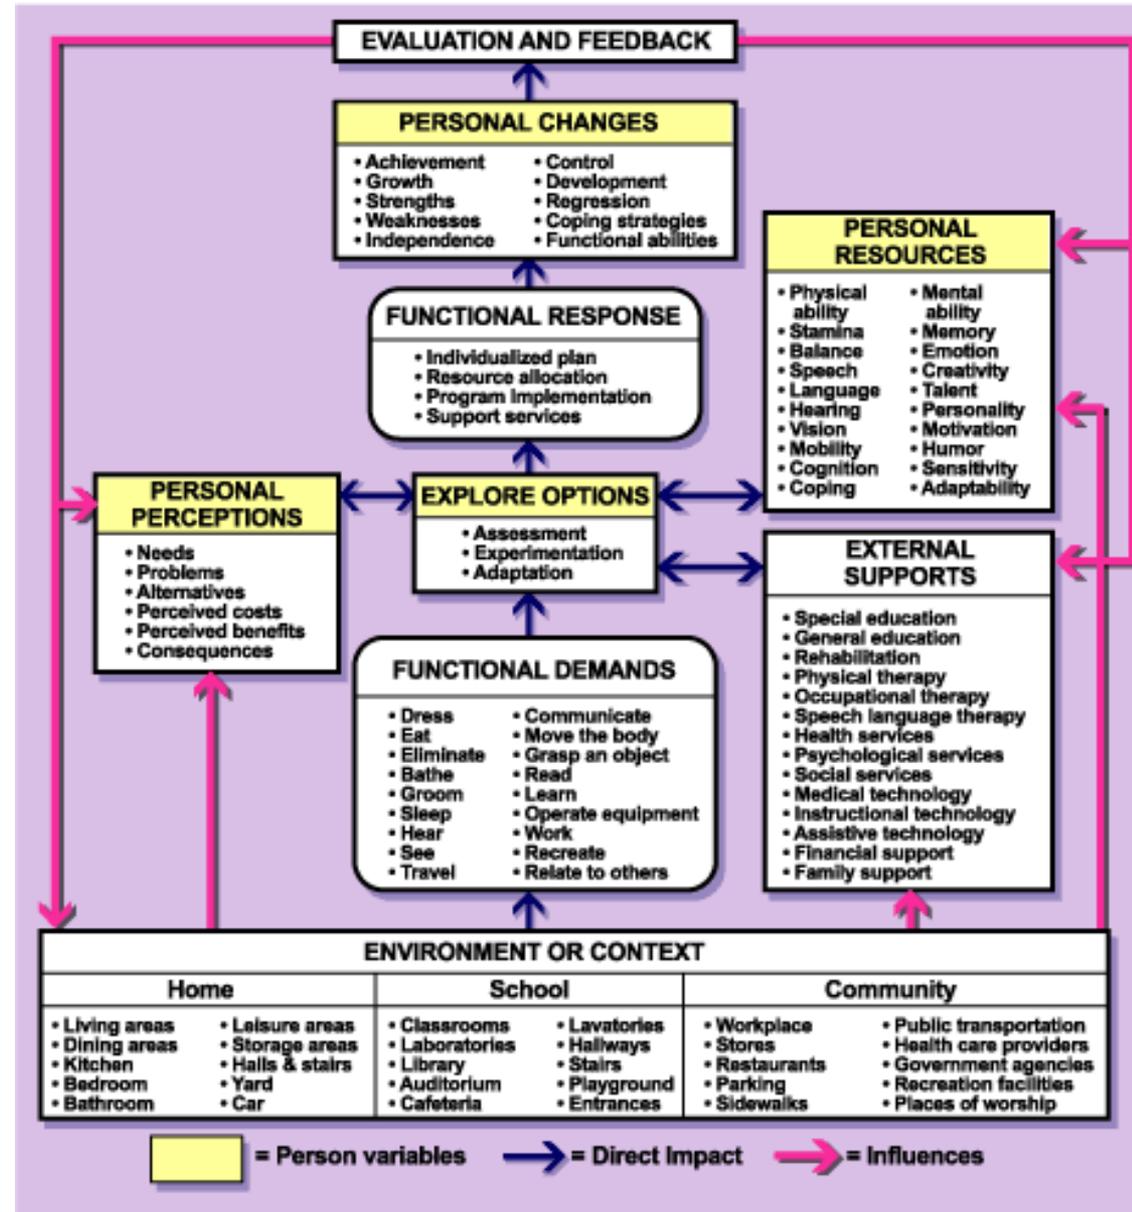

Adapted from Joy Zabala www.joyzabala.com

Examples of Where and When Assistive Technology Supports MY Perception & Discrimination Process
